About us

Born in 2021 from the love for design, sustainability, and the smell of wood. Combined with the restless spirit of two Egyptian designers Sama And Reham.

At Pampas Living, we design versatile and sustainable home accessories crafted to create warm, distinctive, and timeless rooms using wood as our primary material. This material allows us to bring our dreams to life. We combine the know-how of wood with the most innovative designs.

The result is simple yet unique pieces, with personality, and can be passed from generation to generation.

VISION

Expanding our products internationally, having our own shops around the world!

Each piece is created to transmit our values, beliefs, and the love and care that goes into them.

MISSION

We're on a mission to change the way people think about home accessories by designing and handcrafting pieces that are functional, unique, and have emotional, ethical, and real worth.

Pampas Living was originally created to provide clients with quality home accessories and real experiences rather than simply being a brand they own.
